轮询消息js封装

```javascript
$(function() {
    var loadNotify = function() {
        $.post("/commentary/notify").done(
            function(res) {
                if (res > 0) {
                    $("#unreadcount").text(res);
                    layer.tips('<a href="/commentary/commentManage">有' + res
                        + '条新评论</a>', '#unreadcount', {
                        tips : [ 3, '#e4e4e4' ]
                    });
                }
            }).fail(function() {
        layer.msg("系统异常");
        })
    }

    setInterval(function() {
        loadNotify();
    }, 1000 * 60 * 5);

    loadNotify();
});
```
